

P R I S O N E R S O F W A R

When a Scholar, Scientist, or Educator makes the statement----
The American Indian has a Unique Legal Identity, it is a statement of fact. The statement expands and concludes, that to have made the statement, one was in full knowledge to the Uniqueness, which are like no other circumstances, past, present, or future- judged from this world beginning History to the next Eternity, and Eternity is understood to be from One Ice Age, to the next., but even here, there is frail evidence, that it may have started at the prior Ice Age and the methods used, could have been the same as will be described (The Vero and Melbourne Man, I. Rouse, N.Y. Academy of Sciences 1950) to break the world power of the Old Indian Empire of ATLANTIS, which still has descendants today.

There are many Descendants of American Indians to day, that are legally UNITED STATES PRISONERS OF WAR. This is the Unique Legal Identity that American White Scholars, Scientist, and Educators, speak of, not openly but in secret.

Nobody can dispute this Historical fact which was the outcome of several events.

MARCH 17, 1876

It became Official, the United States through Congress, Declared War on Dakota Sovereignty. This Declaration could have been on March 4th., according to War records-, an attack by the United States on Dakota Indians would make it Official.

Hollywood Movie Producers like to tell the reason why the U.S. was defeated by Dakota Indians by their presentation of being outnumbered by Indians. War records and Congressional Acts give a different Story.

With Chief LITTLE CROW getting a group of Indians to disband from the Dakota Sovereignty and creating an Autonomy-type of Government, signed away the Capital (St. Paul, Minn.) and the Eastern part of the Empire. Chief Crow Dog did the same for the Western part of the Empire. Records prove out that well-over 75% of Dakota Indians belonged to some type of Autonomy-type of Government and the treaty with it was an agreement to become Nationals of the United States. United States knew that all these agreements made with these Indians could never become Official unless the Dakota Sovereignty was either destroyed or killed off. With all the territories of the Dakota being occupied by Nationals of the United States, members of the Dakota Sovereignty had no land-base to protect or defend.

Anybody knows in THE WAR GAMES, The General's Staff of a nation's Armed Forces who are in control of the Enemy's over 75% of their Armies, knows the rest is a mopping up exercise in defeating the enemy. But these Army Generals had experiances. They remembered well THE FETTERMAN'S WAR and large numbers did not make a victor because the methods of the American Indian were tactics not known by modern warfare. Whatever plan the United States Army had it had to be well-thoughtout because Congress had made the request that The Dakota Sovereignty be removed from the face of the Earth.
