

Because any SUPREME BEING, never ending, having no beginning or endings; LIGHT cannot be considered in the existence of a CREATOR. If it was, everyone would be able to personally see the SUPREME BEING and alot of individuals who claim to be a messenger of God would go out of business tomorrow.

GENESIS 1:5,1:8,1:13;1:19,1:23,1:31, and 2:2. This could be the counting TIME or moving TIME of the CREATOR. Only  $\frac{1}{2}$  of the differences between the speeds of LIGHT and TIME can be considered, on two different types of LIGHT.

We now have working parts.

3000 - 15.08333=198.89507 - 200=.99447535 x 24=23.867408 -24=.132593  
 .132593 x 60=7.95558 minutes

The amount of civilized TIME it takes to reach Earth from the Sun

8.333333 minutes is the amount of Time for LIGHT to reach Earth from the Sun.

Remember the difference of 1.10493 days from the Serpent? divide this 200(the cycle of the Winter Count)=.0055246x60=7.966424-2=3.977712  
 Remember the CREATOR'S day?

1,000 -15.08333=66.2983days  
 - 66.2952

.0032 or 4 minutes and 36 seconds.

VOID or DARKNESS moves faster then TIME in space in 66.298357 days by 4 minutes and 36 seconds.

But TIME has many spaces in the scheme of things.

The Sun makes one complete revolution every 1.8524 seconds traveling at 1,466,099.2 miles per second having a 864,000 mile diameter. 16,000.5 miles under this diameter of 864,000 miles with a diameter 799,998.5, TIME is traveling in the opposite direction at 1,474,875.5 miles per second.

the reason UNDER THE DIAMETER is used in this sense, of all legends of Ancients of the Indian of America's which in includes the Ancients of New Foundland, Iceland, and Novia Scotia; not one gives the Sun any type of matter or substance. Even when told the civilized scientist state the Sun is one continues Nuclear Fxplosion, the Ancients all stated this would give the Sun substance or matter. All disagreed with this and gave a contemptuous look for dare challenging their ancient knowledge.

There is one point that they give no room for debate. The Sun in its entire existence, is total darkness or void. NO LIGHT!  
 When challenged with the phrase;"YOU CAN SEE THE SUN BY LOOKING AT IT AND IT CAN BURN YOUR EYES OUT!" They became dogmatic by stating:  
 "The SUN is made up of different types of TIME and this TIME gives off energy. When this energy comes in contact with a same type of energy it repels and under goes a change and becomes LIGHT. What you see is the change of TIME becoming LIGHT"
